FAQ

AI Literacy for Everyone

FAQ

AI Literacy for Everyone

Getting Started

Q: What is AI Literacy for Everyone and how do I access it?
A: The AI Literacy for Everyone platform is your one-stop shop for learning all about machine learning and Artificial Intelligence, powered by Brightspace. It's a series of courses designed to give you a foundational understanding of what AI is, how it works, and how it's shaping our world. Think of it as your personal guide to all things AI—no prior experience required!

Q: In what order should I do my courses?
A: You will find a course called "Getting Started: Navigating Your Learning Journey" in your course list that will give you a detailed explanation of what to do and where to go. As a quick summary, the intended order for the courses is Machine Learning Foundations 1, Machine Learning Foundations 2, Responsible AI 1, and finally Responsible AI 2. The Resource Libraries can be accessed at any time, but if you're new to the world of AI, we recommend completing the main courses first.

Q: How do I reset my password?
A: At the login page, there is a "Forgot your password?" link that will ask for your username. Your username will be the email that you used to sign up for the platform, whether that was through Course Merchant, a scholarship, or your organization.

Learning & Navigation

Q: How do I enroll in a course?
A: Learners can purchase a license to our available materials through our Course Merchant portal. Once you have completed your purchase, you will receive instructions on how to access the platform and the workshops associated with your license. If you are part of an organization looking to enroll a large group of users, please reach out to us at support.brightspace@amii.ca.

Q: Can I access courses on mobile?
A: Yes, absolutely! AI Literacy for Everyone is designed to be accessible on the go. You can access all your courses through your mobile or tablet's web browser.

For an even better experience, we recommend downloading the Brightspace Pulse app from the App Store or Google Play. It's a great way to stay up-to-date with your courses and access content right from your device.

Q: How do I navigate through the courses?
A: Whether you are on a mobile device or on a computer, when you enter into any of the main courses you will be brought to the "Content" page. From there, you will find the course modules on the left-hand side of the screen. By clicking on those links (represented by a book symbol and the name of your course), you will open the course package within the Brightspace application.

The course will have its own table of contents, represented by three lines in a white box found in the top left corner. If you are on a computer, we recommend using fullscreen for the best experience. From there you can engage with the content and keep clicking onwards to the next lesson!

The Resource Libraries work a little differently - instead, you will be brought to a homepage with boxes that divide up the available assets. Explore the ones that interest you most!

Q: How do I see how much of a course I've completed?
A: As you work your way through a course, you will be able to see what you've completed in the Table of Contents of the course package specifically. Lessons that you have finished will be checked off as you go. There is also a progress bar that will give you an approximate estimate of how much of the course you have completed so far.

Q: Do the Resource Libraries have completion tracking?
A: No, the Resource Library courses don't include completion tracking. You can think of them more as curated playlists of supplemental learning materials to explore at your own pace. Since they're designed this way, there aren't any built-in knowledge checks. That said, if you've viewed all of the resources within a particular library, you may notice a "Complete" button appear when you view the course from the home page.

Course Features

Q: Will my progress be saved if I leave a course before completion?
A: Yes, with a caveat. Your progress will be saved if you step away from a course and come back to it later. Just a heads-up: if we update the course material, your progress for that specific course will reset.

Q: Is my progress saved if my subscription expires?
A: While the same deal applies for content updates resetting progress, you can otherwise pick up where you left off if you resubscribe and get a new seat on the platform.

Q: Will I get a certificate after completing a course?

A: Yes! After completing all materials and passing all of your knowledge checks, you will unlock an associated digital badge in Accredible. Simply follow the link on the left-hand navbar of your course once you're all done. Let the world know how much you've learned by sharing your digital badge on platforms like LinkedIn.

Help & Support

Q: Who can I contact if I need support?

A: If you get stuck, we're here to help! Since the courses are entirely on-demand, you can send any and all of your questions to support.brightspace@amii.ca. Our team will get back to you with the answers you need.

Q: Where can I find platform tutorials or guides?

A: Looking for more information about using Brightspace? Check out their Before You Begin page to learn more and get tips on navigation.

Q: Which browser should I use?

A: Brightspace's officially supported browsers include the most up-to-date versions of Apple Safari, Google Chrome, Microsoft Edge, and Mozilla Firefox.
